

In the Abstract

Please amend the abstract of the disclosure as follows.

[[The]] A method and apparatus for monitoring a physical and/or chemical transformation of a medium in a microreactor by
~~comprises the steps of:~~ establishing a flow of the medium under
steady conditions through at least one region ~~[[6]]~~ of the
microreactor; using an analyzer ~~means (11)~~ to access the steady
flow at at least one point ~~(6₁, 6₂)~~; measuring at least one
magnitude characteristic of the medium at the ~~or each~~ at least one
point ~~(6₁, 6₂)~~ ~~by~~ using the analyzer ~~means (11)~~; and determining
~~(via 10', BR)~~ characteristics representative of the transformation
of the medium as a function of ~~[[the]]~~ a result of the ~~or each~~
measurement.

It would be appreciated if the Examiner would indicate the
acceptance of the amended abstract in the next office
communication. No new matter is being added.
